

UNC School Psychology Program

Request for two Externship Placements:

Student Name: _____ Date of Request: _____

This request is for the _____ Academic School Year.

Policy:

- *Students are required to complete the following form which is due December 1st.*
- *Students are not allowed to accept two separate externship site offers without the approval of the School Psychology Faculty.*
- *Only 3rd and 4th year students will be considered for two externship sites.*
- *Given that completing an externship at two separate sites will demand a considerable amount of time away from the student's production on their dissertation and internship application submissions, the faculty will review each student request individually. Students that have consistently demonstrated the ability to manage their academic commitments and work load effectively will be prioritized.*
- *Students with Incomplete grades will not be granted permission to accept two externship offers.*
- *If the faculty grants permission for a student to accept two offers, this permission is contingent until the next step is completed. Prior to the formalization of the externship agreement contract both externship site mentors need to be made aware that the student will be externing at each site at the same time. It is important to be transparent with both sites as they should be aware of your time commitments to each site. (Please know that some externship sites have expressed a preference to not have their doctoral extern overextended at two sites.)*
- *Students should also consider the restrictions accepting two externship placements may place on obtaining funding as a TA or RA for the upcoming year. If you are approved by the faculty to accept two externship placements, student must also notify their future TA or RA mentor in order to confirm that they are willing to work with your time constraints.*
- *Students that are granted permission to accept two externship offers may be required to wait until all other students in the program have been able to obtain an externship prior to accepting a second externship placement. You will be notified if this is required in your approval.*
- *Preference will be given to students who have successfully proposed their dissertation.*

		Yes	No
1	Will you be a 3 rd or 4 th year student this upcoming academic school year?		
2	Do you have any <i>Incomplete</i> grades at this time?		
3	Have you successfully passed your written comprehensive examination?
