Master of Arts in Educational Innovation, Technology, and Entrepreneurship

Our cutting-edge MEITE program develops leaders in educational innovation who:

- Apply Design Thinking techniques to leverage technologies for teaching and learning
- Develop ventures that respond to challenges at the intersection of technology, education, and equity
- Become change agents in education-focused companies, nonprofits, and startups

After completing the MEITE program, you will possess the skills needed to launch your own venture, advance your career in the field of educational innovation, and design learning experiences in digital spaces.

Daisy Magnus-Aryitey '20

*Co-Executive Director
Code the Dream*

“People think innovation is just magical thinking, a fever dream, or a great idea that springs out of nowhere, but the MEITE program is actionable. It deviates from that idea of innovation stemming from the brain of only wealthy or very-educated people — helping us see that innovation exists everywhere and we need only tap into it in order to better our society.”

How will *you* propel the world?
