***2023 Questionnaire***

*In order to plan for your individualized Program of Study the faculty is requesting that you complete the following questionnaire. We expect that there will be a number of skill areas which you will not have fully developed. Over the course of your academic career and field placements at UNC we will guide each of you on your Program of Studies and incorporate courses, readings, and field-based assignments which will increase your knowledge base and professional skills in your personalized areas for development. Once you complete this questionnaire, please send this to the School Psychology Program Administrator at [lhutchis@email.unc.edu](mailto:lhutchis@email.unc.edu). Thank you in advance for taking the time to thoughtfully complete this questionnaire and we look forward to working with you in the fall.*

## **Externship Planning**

All incoming doctoral students without experience as a school psychologist (which will be the majority of your cohort) will be placed with mentor psychologists in a school district surrounding CH for both fall and spring of your first year. I will be starting the process of determining school-based externship placements soon for the upcoming school year and want to gather a bit more information from you. Please know that I cannot guarantee a particular site but will do my best to plan accordingly. Your externship placement will take place two days each week. The days can be negotiated with your school psychologist mentor along with your course schedule. Most students do not have classes on Thursdays and Fridays but again, this will student specific.

Thanks! - Dr. Evarrs

1. Which NC (or other state) district(s) have you been in as a teacher or other school professional? \_\_\_\_\_
2. With which age range / grade-level would you like to work? \_\_\_\_\_
3. Do you speak any other languages? If so, at what level? \_\_\_\_\_
4. Any other information that might be helpful in making your placement? (for example: "I live in Sanford or Burlington" etc.) If you happen to not live near CH, please let me know and I might be able to make a placement closer to your home.

## **Additional Information**

The faculty understand that each of you are entering the program with a unique set of skills and experiences which make you a valuable member of the School Psychology Cohort. The charts that you completed above include many of the skills that we would like you to leave the program with, and therefore include competencies which you have not yet obtained. However, we would also like to know of your other competencies, not gleaned from these charts. For example, if you were an elementary school teacher, we would like to understand the skills you feel you have obtained through your educational training and teaching in the field. Please describe these competencies below.
