BK add on licensure courses are in BOLD, ITALICS.

One graduate level Child Development course (EDUC 763 OR alternative child development course) is required for ALL students.

M.Ed. Elective Options:

SPHS 880: Autism Across the Life Span offered Spring terms 2025 and 2026 OR EDUC 689: Foundations of Special Education (offered fall and summer terms remotely) are highly recommended elective courses. Or students may choose other graduate level courses focused on young children and families. Elective courses may be taken in the School of Education or other graduate programs within UNC at Chapel Hill such as Special Education (K-12), Allied Health, Maternal and Child Health, Psychology, Rehabilitation Counseling, and Social Work.
